

# Start of Year Initializations

## Attendance Code Standardization

- This process will rename or add Attendance Categories and Attendance Codes to state approved values.
- Invalid Attendance Categories/Codes will either be renamed as 'Invalid' (if attendance records are associated with the code) or deleted (if no attendance records are associated with the code).

## EFA/EIA Initialization (post-migration)

- This process will clear out any existing EFA and EIA codes and dates for the current school year and will reset EFA codes to a default EFA code based on each student's grade.
- Self-contained data will be erased.
- Process after EOY rollover.
- Make sure to pull a listing of your students and their EFA codes prior to rollover.

## SC23 Add-On Weightings Initialization

- This process will create a new Add-On Weightings record for students that are active on the day that the initialization is run and set each of these fields to 'No'.

## SC25 Miscellaneous SC Fields Initialization

- This process will clear out any existing data for the current school year in the True Grade and I/S fields.
- The English Prof field will be cleared out unless the student currently has a value of '8' (English Speaker I) or '9' (English Speaker II).

## SC26 Precode Initialization

- This process will clear out any existing Precode data for each student.

## Read to Succeed Initialization

- The process will clear all Read to Succeed data for the current school year to include:
  - AltAssessed\_GCE
  - PreAssesement
  - Determination\_Factor
  - PreAssessment\_Score
  - English\_Learner\_GCE
  - PreviouslyRetained\_GCE
  - GCE\_504
  - Proficiency\_Level
  - IEP\_GCE
  - Promotion\_Status
  - Invited
  - ReadingPortfolio\_GCE
  - PostAssessment
  - SummerReading\_GCE
  - PostAssessment\_Score
